

Berry College Program for Inclusive Learning Mission Statement

Welcoming the opportunity to nurture the human potential to learn, explore, connect with others, and contribute meaningfully to one's community.

Our entrepreneurial founder, Martha Berry, understood that intellectual skills and practical skills could be combined to powerful effect in shaping people known for their work ethic, integrity, resourcefulness and willingness to serve. She believed in the wisdom of helping students to help themselves!

Taking place in an unapparelled environment of natural beauty, the Berry IPSE program is a non-degree program designed to support students with intellectual disabilities (ID) to develop academic skills, explore and develop career readiness skills, build interpersonal, self-advocacy and independent living skills with the goal of obtaining competitive integrative employment (CIE) and a fulfilling life realizing the potential of each student, fully engaged and integrated into their community.
